FINAL REPORT
MALI ACTION PLAN

Prepared by: Sidibe Ibrahima

PHILOPHY OF THE REHABILITATION PROGRAMME OF THE
MENTAL RETARDED PEOPLE IN AMALDEME CENTER BAMAKO

(Training the Personnel to teach in the New Center to be opened)

History of Amaldeme when s Amaldeme started special education since 1984 at present at present Amaldeme has about 600 mental retarded children but facilities in the center are getting smaller and smaller to take care of the demand of the mental retarded children; the center therefore plan to start a Training Program of the personnel that will go to teach in the new center to be opened.

The center is aware of this; so once I get back to my country I would like share with the teachers in the center how the Training Program can be conducted. This is the result of the knowledge which I have gained during my study period. I have been seeing that in many center volunteers are recruited in special schools and I think that this system can by applied in my center.

MALI
ONE YEAR ACTION PLAN

- I- **PROBLEM:** "Training the personnel to teach in the new center"
- II- **DESCRIPTION:** Amaldeme is planning to open a New Center in the capital so many handicap children can receive special education.

XI- EVALUATION: 1- Questioners

XII- CONCLUSION:

I would like to extend my respect and appreciation to:

- a- All our lecturers, instead some difficulties to speak English, they gave us the best they know
- b- Our coordinators, Ms. Ando and Ms. Numata for their patience; I know it is not easy to
- c- manage 8 sensibilities.
- d- JICA for allow me to visit this nice country and getting so much knowledge.
- e- Japanese government for this policy in African countries which take into account human aspects.
- f- Japanese people for their hospitality and kindness

Thank you for your patience: **ARIGATO HOZAHIMASS**
