

Towards Inclusive Society.

Samo Fernando Chauque

Sport association of people with disabilities.

Background 1

Problem in Matola community in Mozambique

- ▶ **Problem of education of children with/without disability**

Children with disability do not have any chance to be educated. Because of this, they do not have opportunity to get job after grown up. That means that they have to rely on family for their lifetime. If the family is poor, there is no way for them to survive.

- ▶ **There is another group of children without disability who are not able to follow their class mate in some reasons such as poorness. These children also have difficulty to get job when they get adult.**
- ▶ **Misunderstanding about People with disabilities**
- ▶ **In the community, people with disability is thought to be useless.**

Background 2

Resource

- ▶ **There is an association name Sports Association for People with Disabilities that empower people with disability through sports activity such as sitting volleyball and football.**
- ▶ **The association is organized by three persons. Mr. Samo Fernando chauque who has 12 years teaching experience for the children with disability including children with intellectual disability and Mr. Joao Rungo Passe and Mr. Antonio Nhatumbo who are teachers of public elementary school.**
- ▶ **The association provide people with disability sports activity for 6 times in a month in a gym and sports ground.**
- ▶ **To solve the problem above, we will have an action below.**
