

Action Plan

Title

Training Program on Disability care towards Teachers and caregivers from schools and Institution of social welfare department in Myanmar.

Introduction

Background

The school for Disabled Children , under the department of social welfare, Ministry of Social Welfare Relief and Resettlement was opened on 6th October, 1971 as a pilot project, 9 children with different disabilities were admitted to the school .Owing to the success of the project the school has been extended to accommodate hundred children. The school now caters for the physically as the Mentally Retarded children.

This school is only one school in the whole Myanmar. Some of the children couldn't come to school. Transportation is very difficult for them. The school provide them to give disabled children who are unable to attend regular schools basic education. It's only one to train the disabled children but there has limitation because of lack of dormitory facility and the lack of classroom .so the children from the whole Myanmar didn't get the chance to access the formal education and vocational training.

Following activities are needed to achieve the action plan:....

1. Choosing the action plan by director general, Department of social Welfare.
2. Funding raising by the assistance of Government , Donars(Local NGOs, INGOs

The main concern of the DSW is to formulate the project and to collaborate & to coordinate between the group & donars(GO,INGOs)

To give them the opportunity to develop physically, mentally and socially for their later integration into regular school.

To teach the mentally retarded children the 3'Rs.

To train them to be independent in the activities daily living.
To give their Pre- vocational training.

Social welfare services in Myanmar is essential roles for disabled person. Care for the disabled person need special technique and approach. Role of care give – important. Advanced technology is exactly needed. Conducting training towards care givers as well as staffs , teachers and caregivers from schools and institutions.

Problems

.There has noaccomidation wing so that PWD chilkdren from the whole Myanmar didn't get chance to access the formal education and vocational training. the institution for ohpans has other Id children.The staffs in their center do not know how to train them and didn't send to special school because of the transportation. The children stay in their center. They don't have any chance to attend the school. If the staffs know about the PWD , the children 'll improve.

Long term objectives

The Persons With Disability children can get the opportunity to develop physically , mentally and socially for their life. The children can get the job opportunity and participant into the community.

Short term objectives

The teachers and caregivers to know basic and advance technology . They know more knowledge about the ID children. The children to get the daily living skills and to improve their quality of life.
